

# CLASSIC CANAL CRUISE, 4 DAYS

## Stockholm – Gothenburg 2023

### Day 1

09.00	Dep. Stockholm	Our cruise begins at Skeppsbrokajen 103 in the historic Old Town of Stockholm.
09.30 - 09.45	Hammarby lock	The lock, inaugurated in 1930, is the first lock on our journey and delivers us from Saltsjön into Lake Mälaren.
09.45 - 12.30	Lake Mälaren	Lake Mälaren is located 0.3 metres above sea level. In the Viking Age, Sweden's third largest lake was not a lake, it was a part of the Baltic Sea. There are two UNESCO World Heritage Sites by Lake Mälaren – Drottningholm Palace and Birka, the Viking City.
10.30	Drottningholm Palace	Influenced by French prototype, the Drottningholm Palace was built by architect Nicodemus Tessin the Elder by commission of Queen Hedvig Eleonora. It is the most well-preserved royal castle built in the 1600s in Sweden. Since 1981 the Palace is Their Majesties the King and Queen's residence. We pass the Palace if time admits.
12.40 - 12.50	Södertälje	The present lock in Södertälje was inaugurated in 1924 by King Gustav V. The lock is 135 metres long and 19.6 metres wide, which makes it Scandinavia's largest lock.
12.50 - 16.00	The Baltic Sea	We pass through the archipelago of Södermanland and St Anna.
16.00 - 18.00	<u>Trosa</u>	The small town of Trosa dates all the way back to the 14th century. It was then known as a fishermen's village. Regular steamer traffic from Stockholm and Nyköping began in 1860, bringing large numbers of summer visitors. Today, Trosa is still a popular summer resort. Enjoy a stroll along the River of Trosa, experience beautiful wooden houses and historic quarters (approx. 2.5 km).

### Day 2

00.15	Stegeborg	The ruins of the Stegeborg Castle are beautifully situated on a small island overlooking the bay of Slatbaken. The fort dates from the early Middle Ages and was built to guard the inlet to Söderköping.
01.30 - 03.15	Mem	The lock at Mem was built in 1831-1832 and was the last lock to be built in the canal. On 26 <sup>th</sup> September 1832, the Göta Canal was inaugurated here amid great pomp and circumstance in the presence of King Karl XIV Johan and his family. We enter the Göta Canal through the first of the 58 narrow locks.
04.55 - 05.05	Söderköping lock	The idyllic town Söderköping was founded in the early 1200s and was very important during the Hanseatic period. The town also has a long and very interesting history as a spa. Today, it is also known for its ice cream parlours.
05.50 - 07.05	Duvkullen-Mariehov-Carlsborg	There are eight locks in the short distance of around two kilometres. Take the opportunity to stretch your legs between the locks.
08.35 - 09.15	Lake Asplången	27 metres above sea level.
10.45 - 10.55	Norsholm lock	The lock in Norsholm regulates the water level of Lake Roxen. Here the canal crosses the main railway line between Stockholm and Malmö.
10.55 - 12.55	Lake Roxen	Lake Roxen is located 33 metres above sea level, and has a rich fish and birdlife.
12.55 - 13.55	<u>Berg</u> (Carl Johan)	The Carl Johan lock staircase is the longest in the canal with seven connected locks. The lock staircase raises the boat 18.8 metres from Lake Roxen to the Berg guest harbour. The tour guide takes us on a walk (approx. 3 km) to see the Vreta Kloster church and the remains of the convent. As an alternative you can walk along the canal, or take a refreshing swim in Lake Roxen.  The convent of Vreta dates from about 1100 and was the first nunnery in Sweden. Its importance was later superseded by the convent founded by Saint Bridget (St. Birgitta) at Vadstena. The old convent church at Vreta is one of Sweden's most interesting, offering many medieval treasures. Today, it is used as a parish church and is therefore not always open to visitors.
15.35	Berg (Heda)	The ship has passed all 15 locks in the Berg lock system. It is time to board for departure.
15.55	Ljungsbro, aqueduct	Two aqueducts have been built in the Göta Canal. The aqueduct at Ljungsbro was built in 1970.
19.05	Kungs Norrby, aqueduct	The second aqueduct on our journey is found at Kungs Norrby. This one was built in 1993 to facilitate the accessibility of the national route 34, which we pass over.

19.25 - 19.35	Borensberg	In the idyllic village Borensberg there is a hand-operated lock with a change in level of 0.2 metres. Shortly before the lock we pass a lovely octagonal gazebo leaning out over the canal in a sharp bend, known as the "Helmsman's Horror", and after that we see the well-known Göta Hotel, built in 1908.
19.35 - 20.35	Lake Boren	Our boat slowly traverses Lake Boren, 73 metres above sea level. The lake unites Borensberg and Borenhult.
20.35 - 21.15	Borenhult	The lock staircase at Borenhult is the second longest in the canal, with five locks connected and a total rise of 15.3 metres. It took three years to build the locks, which were completed in 1825. Here you might hear the nightingale sing.
22.15	Arr. Motala	It was Baltzar von Platen who drew up the plans for Motala, and it is called "the Capital of the Göta Canal". In 1822 an engineering works, Motala Verkstad, was established here to serve the canal, and is today considered to be the cradle of Swedish industry. Here you also find the head office of the Göta Canal Company, responsible for its operation and maintenance. You can walk to see Baltzar von Platen's grave, about 1 km along the left side of the canal. Overnight stop.

### Day 3

05.45	Dep. Motala	We leave Motala and head out into Lake Vättern.
05.45 - 08.00	Lake Vättern	With a length of 135 km and a width of 31 km, Lake Vättern is Sweden's second largest lake, 89 metres above sea level. The lake is unusually deep, and its water is very clear.
08.00 - 10.00	<b><u>Karlsborg Fortress</u></b>	We visit Karlsborg Fortress, initiated by Baltzar von Platen and built 1819-1909. The fortress was intended to be used as the reserve capital of Sweden and house the royal family, the government, the gold reserves and the crown jewels in the event of war. Here you can enjoy an interesting guided tour of the fortress and the beautiful Garrison Church.
10.55 - 11.10	Forsvik	Forsvik is one of Sweden's most interesting industrial communities. For six hundred years, iron was worked, boards were sawn and flour was milled here. The lock, built in 1813, is the oldest one in the canal. The impressive iron bridge dates from the same year. In the lock we are sometimes greeted with songs and flowers by the Kindbom family, a religious group.
11.10 - 12.20	Billströmmen/ Spetsnäs Canal	Through two narrow, wood-lined passages and small lakes full of water lilies, we steer out into Lake Viken. The Spetsnäs Canal is a blasted shortcut in Lake Viken and was inaugurated in 1824.
11.10 - 13.20	Lake Viken	The beautiful Lake Viken (91.8 metres above sea level) serves as a water reservoir for the western section of the Göta Canal.
13.20 - 13.30	Tåtorp	There is a hand-operated lock at Tåtorp. The lock was built in 1814 and has a change in level of 0.2 metres.
13.50	Berg Canal	The Berg Canal was excavated in 1931-33 to straighten a sharp bend in the canal and was partly blasted into the living rock.
	The Obelisk	At Lanthöjden an obelisk marks the highest point (91.5 metres above sea level) of the Göta Canal.
16.25	Töreboda	The railway line between Stockholm and Gothenburg crosses the canal here. Töreboda proudly presents Sweden's smallest ferry, "Lina", which travels back and forth across the Göta Canal.
17.25 - 17.50	Hajstorp	There is a lock system consisting of four locks in beautiful surroundings at Hajstorp. In 1822 the western section of the Göta Canal was inaugurated at Hajstorp by King Karl XIV Johan. Here is the Canal Engineer's home, now privately owned and the old smithy. If you want to stretch your legs, this is a good place. Hajstorp to Godhögen lock is approx. 1.5 km.
21.25 - 23.30	<b><u>Sjötorp</u></b>	At Sjötorp there is a set of eight locks and also the remains of some old shipyards. We visit the old warehouse, where you can find a shop selling, among other things, clothes and home décor, a café and the Sjötorp Canal Museum. In the museum you can see old pictures of Sjötorp, the interiors of several old ships, and also learn more about the building of the canal. There is also a map of all the sunken ships in the Lake Vänern. Enjoy a lovely walk along the locks.
23.30 - 06.40	Lake Vänern	Lake Vänern is Sweden's largest lake, and it is located 44 metres above sea level. This is the third largest lake in Europe, after the Ladoga and Onega lakes in Russia. Here, there are more than 22 000 islands, islets and skerries.

### Day 4

07.30 - 07.40	Brinkebergskulle	Brinkebergskulle lock is just past the town of Vänersborg. The oldest lock from 1752 can be seen beside the modern lock from 1916.
08.40 - 10.15	<b><u>Trollhättan</u></b>	We visit the Trollhättan Canal Museum, which is located in a storehouse from 1893. Learn more about the fascinating history of the Trollhätte Canal through the exhibition and film shown here. You can also join the tour guide on a walk through the idyllic and scenic park with the lock staircases from 1800 and 1844.
10.15 - 11.15	Trollhättan, locks	The impressive lock staircase at Trollhättan consists of four locks and has a total drop of 32 metres. Of the three parallel lock systems here, only the biggest one from 1916 is still in use.
12.25 - 12.40	Lilla Edet	Ströms lock at Lilla Edet was built in 1916 and is the last lock on our journey. The original lock was opened in 1607 and was the first lock in Sweden. It was destroyed during the wars with the Danes, but was rebuilt in 1784.
16.00	Arr. Gothenburg	Our cruise ends at Packhuskajen 10, where the old Customs House (Stora Tullhuset) from 1867 is located. Nowadays the Casino Cosmopol is found in this building.
